Allowable Subject Matter

1. Claims 1-4 and 6-12 are allowed.
2. The following is an examiner's statement of reasons for allowance: The examiner finds applicant's arguments on pages 1-4 of the remarks filed 06/25/2007 to be persuasive. As such, the following limitations, in a network system for controlling communication between a user terminal and a peer terminal thereof over a network including a mobile domain, are novel and non-obvious in view of the prior art:

“ (f) conflict avoiding means for avoiding a conflict between said service profile updating means activated by the event signal detected in said home server and a person who is attempting to modify the service profile stored in said service control database, wherein said conflict avoiding means deactivates the event signal in case of conflict, and after the modification of the service profile is finished, redistributes the service profile and reactivates the event signal.”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
